Precautions

1. During the formatting or uploading/downloading, do not disconnect the tablet from the PC. Disconnection during updating or data transfer may damage files or the tablet.

2. Dismantling the tablet will void the warranty. Please check the trouble shooting section of this manual if experiencing problems.

3. Our company reserves the right to improve the product. Different software and hardware versions might affect the product performance and functions, therefore the product shall be subject to change without further notice.

※All warranty information, product features and specifications are subject to change without notice.

Basic Operations

1) Press volume button to increase or decrease the volume.

2) Press and hold Power button for 5S to turn on the tablet. Press and hold Power button for 3S to show "Power off" window. Choose "ok" to turn off the tablet, choose cancel to return.

Note: When the screen has a screen timeout, short press the Power button to wake it up.

• Touch & type

Use your fingers to manipulate icons, buttons, menus, the onscreen keyboard, and other items on the touch screen. You can also change the screen's orientation.

To select or activate something, touch it.

To type something, such as a name, password, or search terms, just touch where you want to type. A keyboard pops up that lets you type into the field.

Other common gestures include:

a) Touch & hold: Touch & hold an item on the screen by touching it and not lifting your finger until an action occurs. For example, touching an icon on home screen and hold it, when the Remove icon is shown on the screen, dragging the selected icon to this icon can remove it from the home screen.

b) Drag: Touch & hold an item for a moment and then, without lifting your finger, move your finger on the screen until you reaches the target position. For example, you can drag to reposition shortcuts on the Home screen.

c) Swipe or slide: Quickly move your finger across the surface of the screen, without pausing when you first touch (so you don't drag

something instead). For example, you can slide a Home screen left or right to view the other Home screens.

d) Double-tap: Tap quickly twice on a webpage, map, or other screen to zoom. For example, double tap a webpage in Browser to zoom in and double-tap again to zoom out.

e) Pinch: In some apps (such as Maps, Browser, and Gallery), you can zoom in and out by placing two fingers on the screen at once and pinching them together (to zoom out) or spreading them apart (to zoom in).

f) Rotate the screen: On most screens, the orientation of the screen rotates with your device as you turn it. You can change this Display setting.

• How to save power?

The battery icon on the screen shows the rest volume of electricity. To save the power, in system setting interface, please set Brightness and Sleep to a reasonable level.

• How to charge the tablet?

Please charge the tablet timely before the battery icon shows blank.

The tablet can be charged via the recommended DC charger.

It is normal to find that the machine surface is warm under charging state.

• G-sensor

If do settings setting → display → Auto-rotate screen → on, the tablet will switch the screen orientation automatically when it is being rotated.
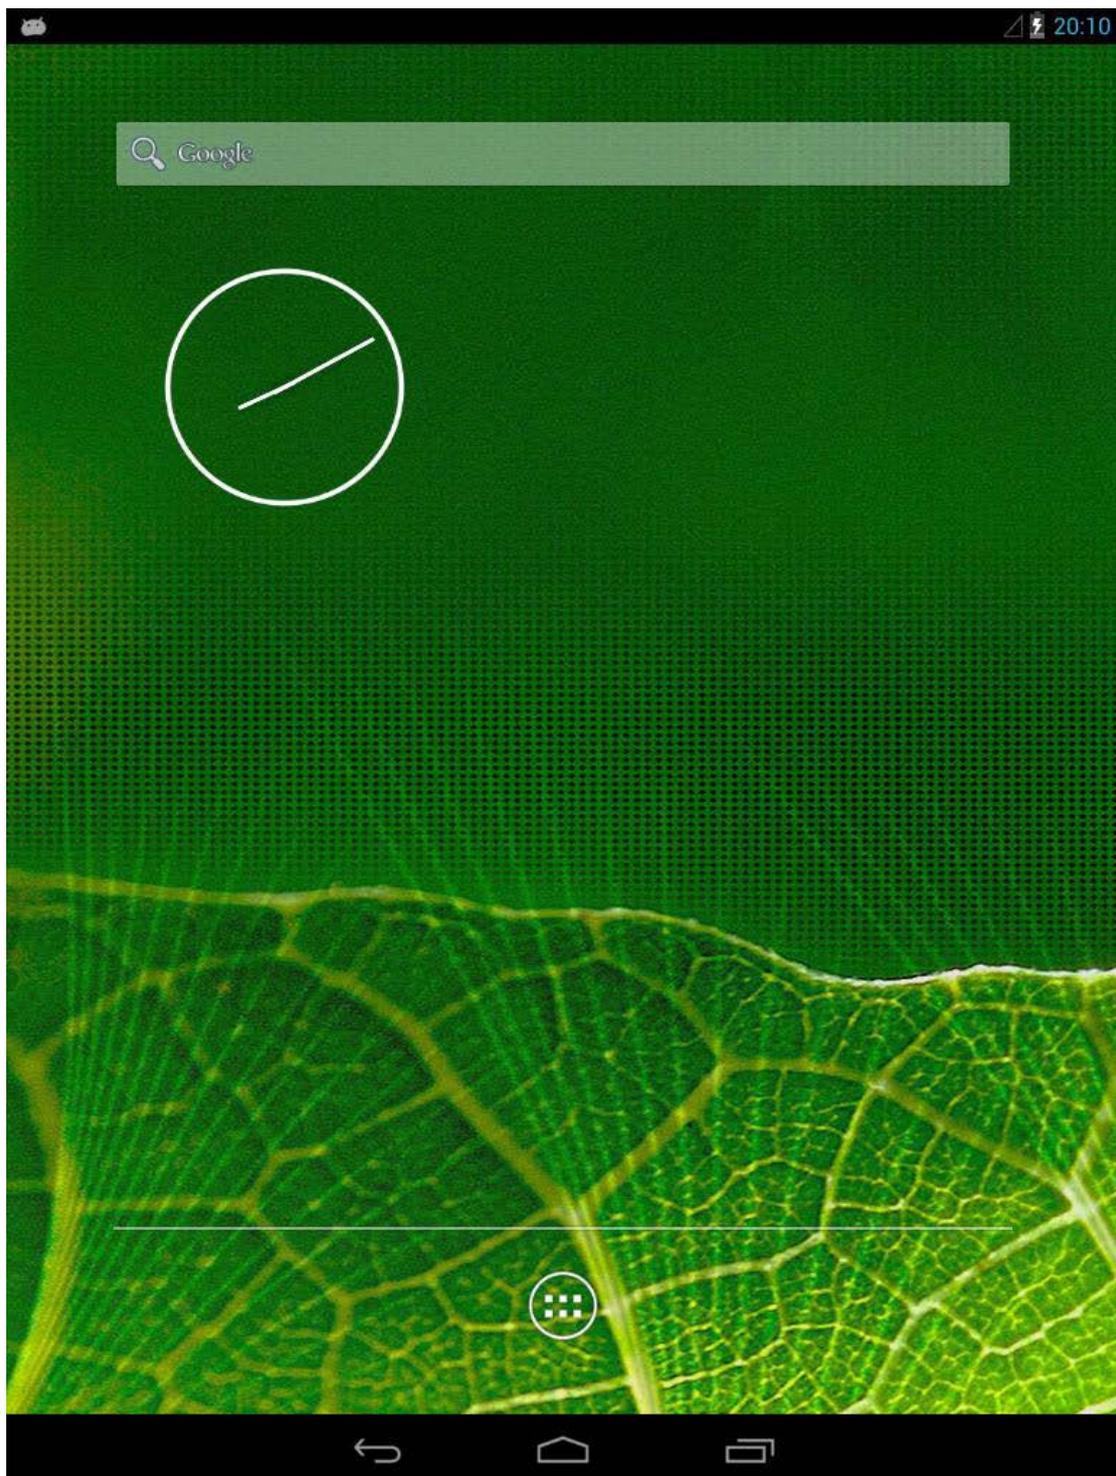

• Connect to Computer and File Transfer

When the tablet on, connecting the tablet using the supplied USB cable to the computer, then you can operate the data on PC.

Home screen

Press power key and hold for 3S to power on the tablet, then the

default home screen is shown as the below:

At the bottom of the screen, you'll find three Navigation buttons. They're

always available. No matter what you're doing with your tablet, you can

always get back to the main Home screen or return to previous screens:

Back: Opens the previous screen you were working in, even if it was in a different app. Once you back up to the Home screen, you can't go back any further in your history.

Home: Opens Home. If you're viewing a left or right Home screen, opens the central Home screen.

Recent apps: Opens a list of thumbnail images of apps you've worked with recently. To open an app, touch it. To remove a thumbnail from the list, swipe it left or right.

Note: After a short time without getting used, these buttons may shrink to dots or fade away, depending on the current app. To bring them back, touch their location.

Status icons: it is used to show the current status of network connection, battery volume and system time.

All Apps: Touch it to see all your apps and widgets. To open an app, folder, or widget, touch its icon.
